

John Diehl says he works for you,
not the special interests. SO ...

What's the Deal with Diehl's \$1,476,733?

All of this special interest money is sloshing around buying influence in Jefferson City .

If John Diehl were not returned to Jefferson City, a new Speaker would be chosen who wouldn't be beholden to this money, and a strong message would be sent.

Jefferson City insiders have said, "This would be a game changer."

- Fewer than 30 actual voters in his district have contributed to John Diehl's campaign.
- Less than 1% came from actual voters in the 89th district.
- 98% came from outside the district, including 32 other states and Washington D.C.

Data from Missouri Ethics Commission Jan. 2011 to Sept. 2014 reports. www.mec.mo.gov

Money pouring into his campaign coffers from special interests, outside this district, makes it clear they think there's a good reason to "pay" the guy at the top.

Help restore integrity to the legislative process.

Don't give your consent to Pay-To-Play Politics!

Don't vote for John Diehl!

Republicans will still have a huge majority in the Legislature even if Diehl loses.

What's wrong with having John Diehl as Speaker of the Missouri House ?

Bad Leadership : Autocratic, Heavy-handed. Will openly or deceptively, if that's more politically expedient, kill bills that he or his special interest supporters don't want. Other representatives feel it's useless to work on legislation once they know he doesn't support it.

Bad Agenda : Willing to allow largest tax increase in Missouri's history , data-mining of our children, elections that can't be truly audited, special advantages for the gaming industry....

Bad Deal for Missouri: The "biggest purse" as an "all-powerful" Speaker facilitates pay-to-play culture in Jefferson City which hurts all Missourians.
